

***Positive Effects of Aeration on Bacteria  
Combined with  
DO<sub>2</sub>E's Patented "Green Aeration  
Technology"***

***Independent testing showed a phenominal increase in bacteria count when employing DO<sub>2</sub>E's Patented "Green" Technology.***

***The DO<sub>2</sub>E System creates a “Bio-Soluble Food Source” (Micro-Particulates) which is easily and quickly consumed by bacteria energized from increased dissolved oxygen.***
